Subject: DOGM Protocol for Release of Reclamation Surety, Moss Rock Products LLC,  
Moss Rock Mining, S/049/059, Utah County, Utah

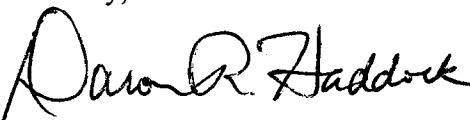

Dear Ms. Kelsey:

The Division received a request to inform Utah County Planning and Zoning that the State will not release the reclamation surety until Utah County has had an opportunity to inspect the site for compliance with their (Utah County) ordinances.

Division rules state that the Division is to coordinate with other agencies as we conduct our business. Postmining land uses must conform to county ordinances. Therefore, the Division will contact the County and provide an opportunity for the County to perform a joint inspection of the mine prior to releasing the surety. However, if the reclamation work meets the State criteria for successful reclamation, the Division is obligated to release the site.

Please don't hesitate to call Beth Ericksen (801) 538-5318 or Lynn Kunzler (538-8310) if you require further information.

Sincerely,

*for*   
Susan M. White  
Mining Program Coordinator
